

Uniform Curriculum Project

Facilitator Materials

August, 2012

The following materials are a result of a statewide initiative to collect and review workshop materials provided in One-Stop Career Centers. These materials were then analyzed and eight workshop curricula were developed.

A focus group of Career Advisors and Senior Employment Counselors then reviewed the curricula and offered suggestions and feedback. The curriculum was piloted by 18 One-Stop Centers, and with help from the One-Stops, we've made changes to the curricula accordingly.
